

**Emil
Gulmammadov**
STRUCTURAL ENGINEER

Personal Profile

In a short time of work, as a Structural Engineer I got some knowledge and experience of analysis small and large-scale civil/structural projects. On the technical side, I am able to implement the projects to the local and international standards. I have experience in adapting the designs to local regulatory norms and standards and experience of working on a number of challenging projects such as Azerkimiya "Steam to power", Oil Product Storage Facility upgrade, AGT Sangachal Terminal New Laboratory Building, New Locker Building and BCP Data Center Design and Construction, etc.
