- Creativity
- Negotiation
- Critical Thinking
- Leadership

I am an experienced Junior System Administrator with a strong background in managing and maintaining enterprise-level IT infrastructure. I specialize in Active Directory, Group Policy, Exchange Server, DNS, DHCP, and system troubleshooting. I am proficient in tools such as VeeamOne Backup, Trend Micro, and Manage Engine Desktop Central. I also have foundational knowledge in C, C++ programming, MySQL, Linux, and ArcGIS System Administration. Currently, I am focusing on advancing my expertise in Java programming.
