ALI MEHDIYEV

SUMMARY

I am 20 years old and taking my first steps in my IT career. Eager to apply my knowledge and skills in networking, cybersecurity, and IT support to grow professionally and contribute to the success of the organization. Certified Information Technology professional with extensive knowledge in networking, cybersecurity, and administration. Holds CCNA (1, 2, 3), Python, and IT Essentials certifications. Experienced in configuring and managing network devices (routers, switches, firewalls), troubleshooting technical issues, and ensuring network security. Eager to apply skills in a junior cybersecurity, network administration, or technical support role, focusing on improving efficiency and securing information systems.

EXPERIENCE

Information Technology Teacher, 09/2024 - Current
GYF - Baku

- Developed and delivered lessons on the components and structure of personal computers, ensuring students understand hardware and software interactions.
- Taught students about network architecture, including the fundamentals of building and maintaining secure and efficient networks.
- Educated students on cybersecurity best practices, including methods to protect themselves from hackers and online threats.
- Designed interactive lessons to explain network topologies, protocols, and real-world applications of networking technologies.
- Organized practical activities, enabling students to assemble PCs, troubleshoot hardware, and configure basic networks.
- Fostered a safe and engaging learning environment for students aged 7–16, promoting interest in IT and encouraging problem-solving skills.

EDUCATION AND TRAINING

Bachelor, **Information Technology**, **09/2020**
AZMIU - Baku

Some College (No Degree), **Networking And Cybersecurity**
Step IT - Baku
Helpdesk Experience During and After Studies at StepIt
- Gained practical experience in the helpdesk field while studying at StepIt and worked at GYF.

SKILLS

Certifications and Skills
- CCNA 1, CCNA 2, CCNA 3 (Cisco Certified Network Associate)
  In-depth understanding of networking fundamentals, routing, switching, and network security protocols.
  Proficient in configuring and managing network devices such as routers, switches, and firewalls.
- Python (Beginner Level)
  Knowledge of Python programming for automation and network-related tasks.
- IT Essentials
  Comprehensive knowledge of computer hardware, software, and networking, with hands-on experience in installation, configuration, and troubleshooting.

Technical Skills
- Extensive knowledge of network protocols including TCP/IP, DNS, DHCP, HTTP, and routing protocols (RIP, OSPF, EIGRP).

- Provided technical support, troubleshooting, and assistance to end-users, ensuring smooth IT operations.
- Assisted in diagnosing and resolving hardware and software issues, ensuring quick resolution for clients.
- Developed strong communication and problem-solving skills by interacting with customers and resolving their technical concerns.

LANGUAGES

Russian: First Language

Intermediate (B1)		Advanced (C1)	

CERTIFICATIONS

IT Essential
Linux
Python
CCNA 1,2,3

- Skilled in configuring and maintaining network devices (routers, switches, firewalls, and access points).
- Ability to troubleshoot and resolve network connectivity issues, perform network diagnostics, and implement security measures.
- Strong experience with configuring VLANs, subnetting, IP addressing, and network segmentation.
- Solid understanding of network security principles, including firewalls, VPNs, and intrusion detection systems.
- Experience with network monitoring tools and managing network traffic.
- Proficient in using command-line interfaces (CLI) for device configuration and troubleshooting.
