▪ Head of Transport and Construction Department

ATEF Group *Baku, Azerbaijan*

Nov 2016 - Mar 2022

I managed and oversaw the construction of major transportation projects. I led a team of engineers and contractors to successfully complete infrastructure projects. I developed and implemented strategies in the fields of transportation and construction to optimize operations, including overseeing the transport of oversized transformers weighing between 50 and 250 tons both domestically and internationally. I coordinated freight shipments to countries such as Nigeria, Georgia, Zambia, Turkey, Kazakhstan, Russia, Ukraine, and Belarus. I supervised the upgrade of railway lines and the construction of a substation for the Baku-Tbilisi-Kars (BTK) railway, a transportation corridor connecting the railway networks of Azerbaijan, Georgia, and Turkey, covering a distance of approximately 900 km.

Representing the ATEF company, I provided oversight for railway lines from Georgia to Baku. In my role as head of the transportation and construction department, I managed a team of over 700 employees. Additionally, I participated in the construction and assembly of a transformer manufacturing plant in Aktau, Kazakhstan. Under my supervision, more than 200 pieces of machinery and equipment were handled. I managed a multi-million dollar budget for the procurement of equipment and materials with companies such as PALFINGER, GOLDHOFER, RENAULT, HIGH VOLT, XCMG, and JCB.

I have experience working in almost all CIS countries, including Turkey.
